ABOUT ME

I am a passionate and adaptable **MERN-Stack Developer** with strong skills in web development, problem-solving, and creating user-friendly digital experiences. With hands-on expertise in **C, C++, Python, HTML, CSS, JavaScript, React and Next.js**, I excel at building responsive, efficient, and visually appealing applications. I am eager to contribute my technical knowledge and creativity to drive impactful projects, continuously learn new technologies, and deliver innovative solutions.

SKILLS

- Web Development
- Python , C, C++, Java
- React + Vite
- HTML , CSS , JavaScript
- Communication Skills
- Critical Thinking
- Management Skills

LANGUAGE

- English
- Hindi
- Gujarati

EXPERIENCE

Project Experience

- **Tomato – Online Food Ordering WebApp**
(React, Node.js, MongoDB, Express, JWT)
 - Designed and developed a full-stack food ordering platform.
 - Implemented user authentication, cart management, and order tracking.
 - Created an admin panel for restaurant and menu management.
- **Snappytalk – Real-Time Chatting App**
(React, Node.js, Socket.io, MongoDB)
 - Built a real-time chat application with private messaging.
 - Added online status indicators for better user interaction.
 - Developed a responsive UI for seamless cross-device communication.
- **Assistant AI – Conversational AI Web App**
(React, Node.js, Gemini (Google) API)
 - Built an interactive AI chatbot with real-time query handling using Gemini (Google) API.
 - Created a responsive interface for smooth multi-device interaction.

EDUCATION

- **Bachelor of Technology – Computer Engineering**
SAL Engineering and Technical Institute
Gujarat Technological University
2025 – 2028 (Current)
- **Diploma – Computer Engineering**
VPMP Polytechnic – Gandhinagar
Gujarat Technological University
2022 – 2025 CGPA:8.73
